

DR NERMINA SELIMOVIC RETIREMENT

We would like to announce that Dr Nermina Selimovic will be retiring towards the end of September. She has been a GP here for 21 years and will be very much missed.

Her passion for providing life-long care has meant she has had the privilege of seeing many patients grow from babies into adults. She has shared heartache and joy with hundreds of patients.

We wish her all the best with the well-deserved retirement, and she will take many happy memories of the loyalty and kindness of many patients into her retirement.

Her patients will be shared amongst the other doctors at the practice, and we hope to continue with the excellent standard of care that Dr Selimovic provided to you.
